

### SnapNrack Tile Replacement Product Update

SnapNrack is updating its product portfolio to further simplify our product offering and provide the best value to our customers. The Tile Replacement Kits were previously offered in full kits that included the Tile Replacement Flashing, Tile Replacement Base, Riser, Mount, Lags, and Umbrella Nuts.

Moving forward SnapNrack will be separating the Flashing from the Hardware Kit in efforts to further simplify our product portfolio and improve the packaging for these products. The change will improve the customer experience with more streamlined packaging and ordering for better inventory and storage.
