SnapNrack Solar Mounting Solutions

Ultra Rail Roof Mount System | *Rail-based Mounting*

The SnapNrack **Ultra Rail Roof Mount** portfolio satisfies virtually all residential roof types featuring labor saving components like the snap-in mounts and splices along with the open rail channel and accessories to create the industry's leading Wire Management Solutions.

RL Universal Roof Mount System *Railless Mounting*

SnapNrack's **RL Universal System (RL-U)** for composition shingle roofs provides the greatest labor efficiency with an installer focused process allowing the system to be installed by a single person, saving time on the roof. This railless system was designed with an installer-focused approach, featuring Universal Mounts and nothing larger than a module.

TopSpeed™ Roof Mount System *Railless Mounting*

TopSpeed™ Mounting System has completely reinvented the installation process by having the majority of the install performed on the ground. This game changing top-down style mounting system allows installers to get on & off the roof in record time & safely. TopSpeed™ Mounts are attached directly to the modules before the module is brought up on the roof.

Butyl Sealant | Roof Attachment Technology

SnapNrack has expanded roof sealant methods with **SpeedSeal+ Technology** - a pre-installed butyl pad for easy peel & stick installation, eliminating disruption to composition shingles. The butyl pad is industry-leading at 0.2" thick, ensuring the roof attachment is fully sealed & watertight. Roof attachments with the butyl remove the need for additional sealant during install, streamlining the process & saving time for installers while ensuring a secure, weatherproof roof attachment.

Integrated Flashing | Roof Attachment Technology

SnapNrack's new **SpeedSeal™ Technology** features an innovative design that incorporates flashing reliability into a single roof attachment by using a patent pending Lag Driven Sealant Technology. The SpeedSeal™ Foot or Track has a sealant cavity with compressible barrier secures sealant in place & fills voids.

Miami-Dade NOA NO: 20-1104.01

Direct to Deck | Roof Attachment Technology

Now **SpeedSeal™ Technology** applies to roof attachments that mount directly to the deck with the **SpeedSeal™ DeckFoot & DeckTrack**. These rafter independent attachments allow for layout adjustability on the roof without the need to locate & attach to rafters. More importantly, installers have the ability to mount on specialty roof structures without standard rafters.

Flashing Based | Roof Attachment Technology

The SnapNrack **Umbrella Seal Technology** is an innovative flashing that uses a fully formed raised cone to prevent any water leakage. When paired with a single lag bolt & our Umbrella Washer, the Ultra Rail L Foot Mount is secured to the roof with the Umbrella Flashing in one step creating a multi-layer waterproof seal.

TOPSPEED

SnapNrack TopSpeed™ Mounting System Time to revolutionize rooftop solar

SnapNrack TopSpeed™ Mounting System is the future of solar racking installation for all installers. This game changing top down style mounting system allows installers to get on and off the roof in record time and safely. TopSpeed™ changes the way solar mounting hardware is installed by simplifying exhaustive layouts, eliminating the guesswork for locating rafters and pilot hole mistakes and saves time by no longer staging material on the roof.

- TopSpeed™ Mount is a preassembled mount that integrates three components into one - includes adjustable Track for North-South flexibility, Wood Fasteners, and Leveling Tower.
- The TopSpeed™ Mounts attach to modules on the ground to speed up the installation process & reduce time on the roof for safety concerns
- TopSpeed™ Clamp enables top down mounting installation with installer safety in mind and supports module overhangs in staggered arrays in place of an additional mount.
- The Universal Skirt features the familiar railless installation by easily locking to bottom row of mounts while ensuring a strong structure for leveling and alignment of first row of modules.

SnapNrack RL Universal **The Fastest Mounting System. Period**

SnapNrack RL Universal Mounting System is designed to provide the fastest, most intuitive install experience on the roof. The direct mount system features four basic components for easy material management. Features incredible flexibility with a single Universal Mount that fits module heights from 30 - 40 mm and the highest spans of any current rail less system. The installer focused process allows the system to be installed by a single person.

- The RL Universal Skirt ensures a strong structure for leveling and alignment of first row of modules.
- Both SpeedSeal™ Technology or Umbrella Seal Technology roof attachments are designed for maximum versatility with 6" of North-South adjustability for all Mounts.
- A single Umbrella Lag screw secures flashing & Flash Track to roof in one complete action.
- A single Mount is used at all locations on array and eliminates Mount/Link interference, bypassing the need for hybrid mounts found in competitive systems.
- The Links clamp onto the top of modules securing them in place while providing row-to-row bonding.

SnapRack Ultra Rail **The Ultimate Value in Rooftop Solar**

Ultra Rail is the ultimate rail solution for mounting solar modules on the roof. The entire system is a snap to install utilizing pre-assembled Ultra Rail Mounts that include snap-in brackets for attaching rail. Snap-in module clamps provide an intuitive install experience installers know and love.

- Industry-leading aesthetics with Universal End Clamps & snap-in End Caps that make the mounting system invisible underneath the array.
- Unparalleled wire management solutions with accessories such as Junction Boxes, Universal Wire Clamps, MLPE Attachment Kits, and Conduit Clamps.
- Low profile rail maintains the open channel with room for running wires resulting in a top quality finished install.
- UR-40 has the largest span capabilities of any light rail solution.
- UR-60 is a heavy duty profile for higher loading conditions.

Wire Management Solutions

SnapNrack Wire Management - Ultra Rail - S200

SnapNrack offers the largest set of mounting accessories to enhance the install process. SnapNrack **Wire Management Solutions** comprise a set of dedicated components to reliably and cost-effectively secure PV module and microinverter leads. All components are made of materials which have been selected for their ability to handle high UV exposure and extreme rooftop temperatures common under solar arrays.

 Ultra Rail Tilt-Mount Kits include include the new **OmniBase™**, a Standoff Shaft and Ultra Rail Tilt Clamp (Standoff Clamp, L Foot, and Ultra Rail Mounting Hardware).

Please refer to Ultra Rail Tilt Angle Table (Nominal).

For Foam Roofs, order **Ultra Rail Tilt-Mount Kit, 10"** for front leg and **Ultra Rail Tilt-Mount Kit, 14"** for rear leg to obtain a desired **low fixed tilt (5° - 14°)**. Order **Ultra Rail Tilt-Mount Kit, 10"** for front leg and **Ultra Rail Tilt-Mount Kit, 23"** for rear leg to obtain a desired **high fixed tilt (15° - 28°)**.

Ultra Rail Variable Tilt Hardware Kit for Metal Roof Attachments includes L Feet, Ultra Rail Mounting Hardware, and miscellaneous hardware to complete kit for front and rear legs. Metal roof attachments (without L Foot) and section of Ultra Rail for rear leg are to be ordered separately.

Please refer to Ultra Rail Tilt Angle Table (Nominal) to obtain desired tilt angles for 5° - 30° Fixed Tilt Kit Standoffs with Ultra Rail Tilt Clamps.

Variable Tilt hardware and Simple Tilt hardware *can be* installed with Standoffs and such, they are not approved in SnapNrack Structural Engineering Reports.

Simple Tilt requires 4ft spacing for portrait modules and 2ft spacing for landscape modules between mounts front to rear, and is only available as a direct mount to roof structure.

Ideal for use with E-Curb (pourable penetration sealant) - available for purchase as special order, Simple Tilt Attachments are for application on flat roofs only.

Note that Simple Tilt SKUs are referred to in Structural Documentation as Tilt Leg Plus.

(SOLD IN KITS)

Ultra Rail Variable Tilt Hardware Kit for Metal Roof Attachments

Ultra Rail Tilt Angle Table (Nominal)

5° - 30° Fixed Tilt Kits - Standoffs with Ultra Rail Tilt Clamps

Front to back attachment spacing	Landscape			Portrait		
	5 ½" & 10" Standoffs	5 ½" & 14" Standoffs	5 ½" & 23" Standoffs	5 ½" & 10" Standoffs	5 ½" & 14" Standoffs	5 ½" & 23" Standoffs
16"	16°	28°	N/A	N/A	N/A	N/A
24"	10°	20°	N/A	N/A	N/A	N/A
32"	8°	15°	28°	8°	15°	28°
48"	N/A	N/A	N/A	5°	10°	20°

Notes:

1. Table is based on 60 cell modules
2. Table assumes mounting zone on portrait modules not exceeding 25% of module length
3. Maximum tilt angle allowed = 30° relative to horizontal
4. All tilt ups must have 5-1/2" Standoff in front

SnapRack Series 200 Ground Mount - The Adaptable High Quality Solution

Series 200 Ground Mount System is efficient & flexible while optimizing materials and minimizing footprint. The system is designed to attach easily to a standard 1 ½” galvanized pipe structure using snap-in features and structural pipe fittings. Newly improved engineering allows for up to five-module high assembly & a foundation option utilizing ground screws via 2” schedule pipe.
