Re: Report # 2017-00240-D.02 – SnapNrack Series 200 Ground-Mount Solar Photovoltaic Racking System  
Subject: Engineering Certification for the State of Colorado

PZSE, Inc. – Structural Engineers has provided engineering and span tables for the SnapNrack Series 200 Ground-Mount Racking System, as presented in PZSE Report # 2017-00240-D.02, "Engineering Certification and Span Tables for the SnapNrack Series 200 Ground-Mount Solar Photovoltaic Racking System". All information, data, and analysis therein are based on, and comply with, the following building codes and typical specifications:

- Building Codes:
1. ASCE/SEI 7-10, & 7-16, Minimum Design Loads for Buildings and other Structures, by American Society of Civil Engineers
  2. 2015 & 2018 International Building Code, by International Code Council, Inc.
  3. 2015 & 2018 International Residential Code, by International Code Council, Inc.
  4. AC428, Acceptance Criteria for Modular Framing Systems Used to Support Photovoltaic (PV) Panels, November 1, 2012 by ICC-ES
  5. Aluminum Design Manual 2005, 2010 & 2015, by The Aluminum Association, Inc
  6. ANSI/AWC NDS-2012 & NDS-2015, National Design Specification for Wood Construction, by the American Wood Council

Design Criteria:

Risk Category I  
Seismic Design Category = A - E  
Basic Wind Speed (ultimate) per ASCE 7-10 or 7-16: up to 170 mph  
Ground Snow Load = 0 to 120 (psf)

This letter certifies that the loading criteria and design basis for the SnapNrack Series 200 Ground-Mount Racking System Span Tables are in compliance with the above codes.

If you have any questions on the above, do not hesitate to call.
