

## SnapNrack Product Transition Notice

SnapNrack continues their commitment to provide the highest value products for our customers and is excited to release several new products that leverage our proven installer focused technology, while bringing forth new enhancements to improve the overall customer experience. These new products and resulting changes are featured in the 2020 SnapNrack Product Catalog, *version Q4, MSRP effective Oct. 2020*. We apologize for any inconvenience that this transition creates and to help with this transition, we have created the transition chart which details the Product SKU transitions. SnapNrack will continue to provide technical support and documentation resources for the obsolete SKUs.

Please visit [snapnrack.com](http://snapnrack.com) to learn more about SnapNrack's products or if you need more information, please contact your local sales representative or SnapNrack Technical Support.
